3. Well, can't you see her standing there?
   See how she looks, see how she cares.
   I let her steal the night away from me.

4. Nine o'clock this morning
   She left without a warning.
   I let her take advantage of me.

3. Then it's easy to believe,
Somebody's been lying to me.
But when the wrong word,
Goes in the right ear
I know why you've been lying to me.
It's gettin' rough, off the cuff,
I've got to say enough's enough.
Bigger, the harder he falls.
But when the wrong antidote,
Is like a baldge on the throat.
You run for cover in the heat,
Why don't they.....

2. I will dance, I will sing and my life shall be gay.
   I will charm ev’ry heart, in his crown I will sway.
   When I woke from dreaming, my idols was clay.
   All portion of love had all flown away.

3. Oh, he taught me to love him and promised to love,
   And to cherish me over all others above.
   How my heart is now wond’ring, no misery can tell.
   He’s left me no warning, no words of farewell.

4. Oh, he taught me to love him and called me his flower,
   That’s blooming to cheer him through life’s dreary hour.
   Oh, I long to see him and regret the dark hour.

He’s won and neglected this pale wildwood flower.

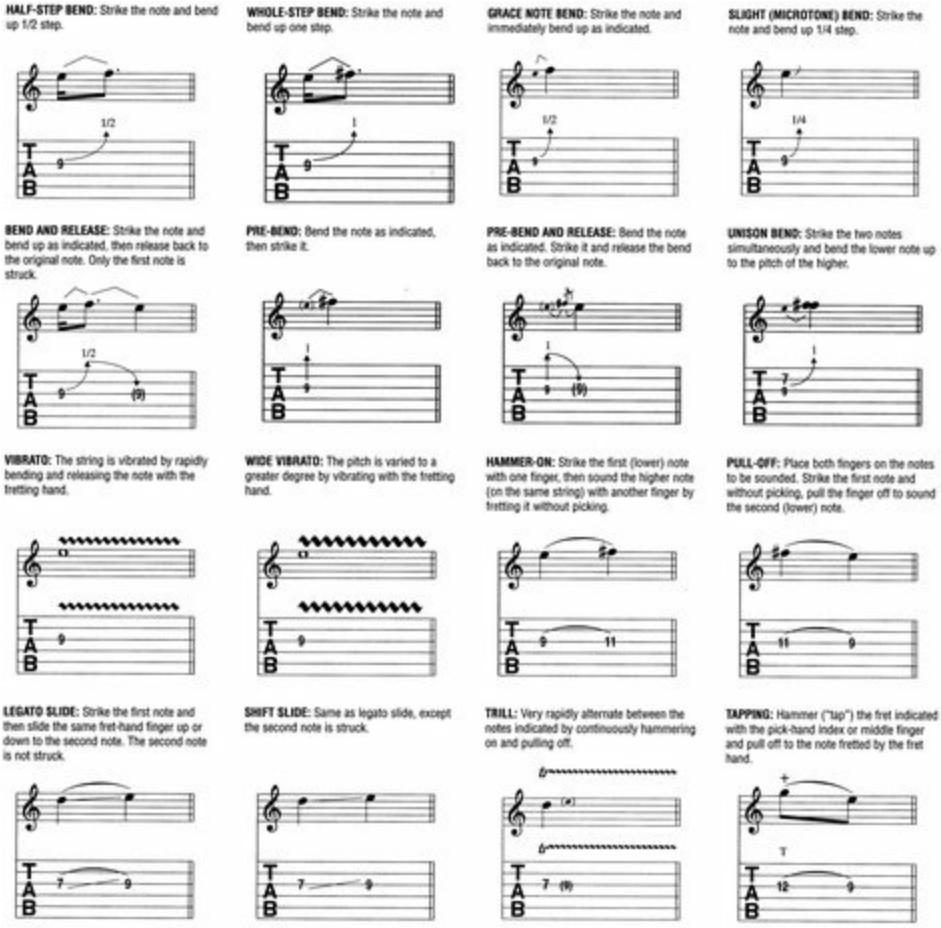
Guitar Notation Legend

Guitar Music can be notated three different ways: on a *musical staff*, in *tablature*, and in *rhythm slashes.*

Definitions for Special Guitar Notation

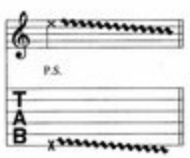


NATURAL HARMONIC: Strike the note while the fret-hand lightly touches the string directly over the fret indicated.

PINCH HARMONIC: The note is fretted normally and a harmonic is produced by adding the edge of the thumb or the tip of the index finger of the pick hand to the normal pick attack.

HARP HARMONIC: The note is fretted normally and a harmonic is produced by gently resting the pick hand's index finger directly above the indicated fret (in parentheses) while the pick hand's thumb or pick assists by plucking the appropriate string.

PICK SCRAPE: The edge of the pick is rubbed down (or up) the string, producing a scratchy sound.



MUFFLED STRINGS: A percussive sound is produced by laying the fret hand across the string(s) without depressing, and striking them with the pick hand.

PALM MUTING: The note is partially muted by the pick hand lightly touching the string(s) just before the bridge.

RAKE: Drag the pick across the strings indicated with a single motion.

TREMOLO PICKING: The note is picked as rapidly and continuously as possible.

ARPEGGIATE: Play the notes of the chord indicated by quickly rolling them from bottom to top.

VIBRATO BAR DIVE AND RETURN: The pitch of the note or chord is dropped a specified number of steps (in rhythm) then returned to the original pitch.

VIBRATO BAR SCOOP: Depress the bar just before striking the note, then quickly release the bar.

VIBRATO BAR DIP: Strike the note and then immediately drop a specified number of steps, then release back to the original pitch.

Additional Musical Definitions

(accent)	• Accentuate note (play it louder)	**Rhy. Fig.**	• Label used to recall a recurring accompaniment pattern (usually chordal).
(accent)	• Accentuate note with great intensity	**Riff**	• Label used to recall composed, melodic lines (usually single notes) which recur.
(staccato)	• Play the note short	**Fill**	• Label used to identify a brief melodic figure which is to be inserted into the arrangement.
⊓	• Downstroke	**Rhy. Fill**	• A chordal version of a Fill.
V	• Upstroke	tacet	• Instrument is silent (drops out).
D.S. al Coda	• Go back to the sign (𝄋), then play until the measure marked "***To Coda***," then skip to the section labelled "**Coda**."		• Repeat measures between signs.
D.C. al Fine	• Go back to the beginning of the song and play until the measure marked "***Fine***" (end).		• When a repeated section has different endings, play the first ending only the first time and the second ending only the second time.

NOTE: Tablature numbers in parentheses mean:
1. The note is being sustained over a system (note in standard notation is tied), or
2. The note is sustained, but a new articulation (such as a hammer-on, pull-off, slide or vibrato begins), or
3. The note is a barely audible "ghost" note (note in standard notation is also in parentheses).
